

**TUS VISION 150**  
**Helping to build our**  
**global future**  
**TUS**

## Capitalizing on the traditions and strengths of TUS to achieve even greater growth

<b>Education</b>	“Achieving Excellence” educational program / Digital transformation of education / Fostering development of TUS data science experts
<b>Research</b>	Strengthening of co-creation innovation / Cultivation of status as a global hub in key fields / Expansion and enhancement of the research environment
<b>Internationalization</b>	Expansion and enhancement of the overseas research program / Facilitate programs that enhance students’ international competitiveness
<b>Student support</b>	Support systems accommodating greater student diversity / Skills development via extracurricular activities / Support for graduate students
<b>Social contribution and cooperation</b>	Strengthening of cooperation with the local community / Strengthening of recurrent education and alumni connections
<b>University corporate management</b>	Financial base strengthening / Administrative and organizational strengthening / Promotion of diversity / Crisis and risk management
<b>Campus development</b>	Smart campus / Restructuring and eco-campus adoption
<b>Improvement of admissions system</b>	Reform of the undergraduate entrance examination system / Strengthening of linkage between the university and high schools

**Next-Term Action Plan**  
 (2027-2031)

**TUS VISION 150**  
**Bringing it all together**

Making great strides by capitalizing on the results of the 2026 medium-term action plan

**2026 Medium-Term Action Plan**  
 (2022-2026)

**2021 Medium-Term Action Plan**  
 (2019-2021)

### Start of focus on the 150th anniversary

- Introduction of liberal arts education program for all grades
- Start of university DS education program
- Expansion and enhancement of scholarship system
- Strengthening of recurrent education
- Strengthening of university's financial base
- Restructuring of the Noda Campus

### Core strategy

Maintain and develop an educational policy of “Achieving Excellence” to foster global professionals who will play a leading role in society

Be a university that students, alumni, faculty, staff and all other stakeholders feel pride in

Focus on research as a strength to bolster for the sake of producing results that will benefit humanity and the world

Sound education rooted in a tradition of “Achieving Excellence”  
 Strong, well-regarded research capabilities as a comprehensive science and technology university
